Syncopation's Czar Heads Snappy Bill For Metropolitan

Rube Wolf, "czar of syncopation," "the world's homeliest musical scream," will open at the Metropolitan Theatre, Broadway at Sixth street, Los Angeles, June 23, as master of ceremonies and leader of the Fanchon and Marco presentations.

This is the announcement of Frank L. Newman, managing director of the Metropolitan, who also states that Eddie Peabody, whom Rube Wolf will succeed, will go to Seattle to open a new theatre there. Rube's stay at the Metropolitan with his greater band will be indefinite.

Mr. Newman has said: "It is with pleasure that I announce an arrangement with H. B. Franklin, president of West Coast Theatres, Inc., whereby the Metropolitan Theatre is able to offer its patrons the world's greatest stage attractions, Fanchon and Marco presentations, led by that master of masters of ceremonies, Rube Wolf, in conjunction with the most entertaining screen attractions the industry can furnish. The Metropolitan will enter a new era of entertainment on June 23."

Rube Wolf, a product of Southern California, is an accomplished musician and a versatile comedian. He is an adept dancer, an exceptional cornetist, and, according to his friends and himself, "the world's homeliest musical leader." He is a brother of Fanchon and Marco, and was making a name for himself as an orchestra leader while the famous duo were developing their idea of motion picture stage presentations to national prominence. Rube comes to the Metropolitan direct from San Francisco, where he made a tremendous hit as a comedian who can laugh your worries away.

Chevrolet Sales Arrangement Gives Klingler Big Job

H. J. KLINGLER

R. H. Grant, vice-president of the Chevrolet Motor Company, in charge of sales, has announced the appointment of H. J. Klingler as general sales manager. Mr. Klingler was formerly assistant general sales manager.

In his new position Mr. Klingler assumes much greater responsibility in the direction of Chevrolet sales. The new arrangement will permit Mr. Grant to devote more time to personal contacts with the Chevrolet retail organizations throughout the country and to more thorough comprehend field conditions and dealer problems.

Mr. Klingler has been associated with Mr. Grant in sales work for many years. He joined the Chevrolet organization in June, 1924, as sales manager of the St. Louis zone. One year later he was called to Detroit as an assistant sales manager, the capacity in which he has served for the last two years.

Army Planes Fight Fire in Forests

In the coming summer campaign against fire several army airplanes will be put into service to help the forest officers protect the national forests of California and the Pacific northwest, says the United States department of agriculture. Airplanes enable forest officers to get a rapid birdseye view of large forest fires and to direct the attack accordingly. In a cloudy or hazy weather and in regions where the atmosphere is heavy with smoke of forest fires, so that visibility at ground lookouts is greatly reduced, planes take up the work of patrol. Airplanes are also called into duty after heavy electrical storms, which often set a number of fires in widely separated parts of the forest.

Redondo Beach Set For Summer Opening

Redondo Beach will stage two gala days featuring the official opening of the summer season on Saturday and Sunday, June 25 and 26.

The program will consist of special entertainers, band concerts and dance carnival in ballroom on Saturday, and band concerts, novelty vaudeville and special amusement features Sunday. During the season there will be band concerts and novelty vaudeville on Sundays and holidays, and a special children's matinee in the ballroom every Wednesday, with free dancing, vaudeville, and souvenirs for all boys and girls. The splendid picnic grounds in the municipal park and on the

Tea Room Managers Paid Better Than School Teachers

Tea room management is the most lucrative of the possible vocations in the field of home economics. This is the conclusion reached as a result of a recent study of occupations open to women, made by Laura V. Clark, former lecturer in home economics at the University of California, and which was published by the University Press.

It is one of the newer fields for women, but it is rapidly growing. The average salary is approximately the same as the average high salary for teaching, and the average low salary for the tea room manager is higher than the average low salary for the teacher, it was found.

"The tea room is popular with the pleasure seeker," says Miss Clark, "but it must have real worth to hold their trade."

"The venture to be a success must be carefully thought out and organized on a business basis. Optimistic women can't depend upon the same methods that 'get by' at home."

The most important feature is the production of good food, and the most successful tea shop is the one in which the food served is uniformly good.

"This is a field for the college woman, and is interesting and remunerative to the right person," says Miss Clark.

Motor Tourists Are Pouring Into State

LOS ANGELES, June 23.—Every record for motor tourist travel into Southern California will be broken this year by at least 25 percent, and perhaps as much as 40 percent, it is predicted by officials of the All-Year Club of Southern California, following a close check on the cars that have entered this state to date. The increase so far this year over last is 29 percent, and the trend is toward a greater and a greater increase. The actual count of cars was made by the agricultural department of the state, in conjunction with the Automobile Club of Southern California.

June is the month of the big increase, July even greater. This occurs because the schools close in June and vacations really start. The westward vacation movement, however, is not felt fully until July. waterfront are always a source of attraction, and the magnificent bath house always receives much patronage.

Fishing is another feature at Redondo Beach. One may indulge in this sport either from the pier or from the various fishing barges anchored off shore. Motor boats make frequent trips from the pier at moderate rates.

Remember that family that stopped paying rent? They had the right idea, didn't they? Why don't you have a talk with us? Life's too short to work for the landlord.
